Sacramento: Although SB 1338, Abortion (Kehoe) was defeated in the State Senate Business, Professional, and Economic Development Committee this past Friday, it was granted reconsideration by the same committee and is scheduled to be voted on again next Monday, May 7.

Please contact committee members listed below along with their committee votes. Thank those who voted against SB 1338 and urge all committee members to **VOTE NO on SB 1338**, which would allow midwives, physician assistants and nurse practitioners to perform aspiration abortions. SB 1338 is imprudent and unnecessary. It will lower medical standards on a surgical procedure that has resulted in complications and deaths of women by botched legal abortions. Organizations please use your letterhead.

Planned Parenthood, a prime sponsor of the bill, has had incidents of medical mishaps with (presumably) licensed physicians and surgeons. SB 1338 will not improve their medical standards. More likely, it would improve their income by increasing clientele and reducing costs.

Assemblyman Brian Jones, who represents the same district as Kehoe, said, "This whole thing is cloaked in deceit." Though sponsors say allowing more unlicensed people to perform abortions will give women in rural areas more access to them, "I have not had one constituent come to me and say 'Will you please make it easier for us to get abortions?' ", he said.

Medical safety should be of more concern than easy access to abortion in rural areas. If qualified physicians are not available there now, how is a woman's safety improved by affording her an aspiration abortion with its potential for a punctured uterus? Medical emergency vehicles from neighboring hospitals have been seen at the Planned Parenthood clinic in Orange County (photo left). How close is the nearest hospital in rural areas?

California is "the first state that we know of that's ever looked at rescinding and actually decreasing the standard of care that women would be getting if they go into an abortion clinic," said Daniel McConchie, vice president of government affairs at Americans United for Life. That could create a ripple effect in other states. As the California Catholic Conference points out, California physician assistants and nurse practitioners aren't allowed to remove patients' earwax.

Though the Committee is overwhelmingly Democrat and has few pro-life members, four people on the committee - Lou Correa, Ellen Corbett, Gloria Negrete McLeod and Juan Vargas - are Catholics who might be convinced of the bill's shortcomings. Two NO votes or Abstentions from them could doom the bill. Senators Correa and Vargas have voted NO on the first round, perhaps the others may be convinced to do so on the second round.
